

SAP on Cloud

Running your SAP applications in the Public Cloud helps customers to simplify infrastructure management, increase flexibility of the landscape and lower costs. Over time, following a cloud-strategy improves time to market and accelerates innovation, eventually resulting in higher competitive advantage.

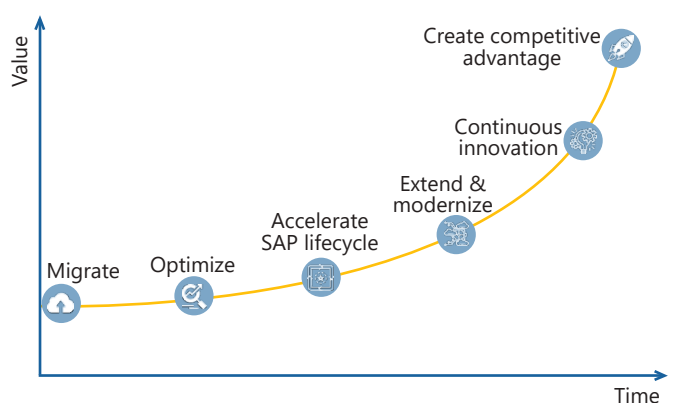

Scenarios

-  **Production systems**
Directly implement or migrate SAP systems on the cloud
-  **Non-production systems**
Quick provisioning of Development and Test environments
-  **Temporary training and demos**
Set up a training or demo SAP system on the cloud
-  **Disaster recovery**
Run SAP systems locally but set up a standby system on the cloud for disaster recovery purpose
-  **Archiving**
Archive data or SAP systems with a long retention period on the cloud

Immediate benefits

-  **30-75 % cost savings**
Decrease infrastructure expenses and save in operations with the pay-per-consumption model
-  **Days instead of weeks**
Fast and flexible deployment of additional SAP systems on demand
-  **Higher compliance standards**
Get the highest security and compliance standards for your SAP environment
-  **Unlimited flexibility & scalability**
Get more flexibility and scalability, and increase the ability to adopt new technologies

Long-term value

Public Cloud Partners:

SAP on Cloud Migration Process

ITPC is more than just a cloud-migration partner. We look at the big-picture of the SAP on Azure-migration by supporting our customers' entire transition to the cloud, with the following five steps:

1 ASSESS

- Business case & cost estimation
- Regulatory requirements and compliance
- Analysis of current SAP landscape
- S/4HANA Readiness Check and sizing report

2 PREPARE

- Detailed SAP (S/4HANA) sizing and architecture design
- Migration method and plan
- Infrastructure provisioning

3 MIGRATE

- Execution of pilot migration
- Execution of migration according to plan
- System integration
- High-availability & disaster recovery
- Implementation of backup strategy
- Execution of tests
- Evaluation of KPIs and test results

4 OPERATE

- 7 x 24h support
- Infrastructure management, operation, maintenance & support
- Combined offerings: different service packages, service levels & support models
- Fixed-cost approach

5 BENEFIT

- Immediate benefits: unlimited flexibility, simplified infrastructure management, reduced costs
- Long-term value: continuous innovation, accelerated SAP lifecycle, faster time to market
